- ✓ Light, fresh, water soluble formula
- ✓ Disperses easily, great for household uses
- ✓ Cost-effective

Available in 250mL

Did you know?

Tea Tree Oil is distilled from the native Australian Tea Tree plant (*Melaleuca*).

Its healing properties of Tea Tree Oil were first discovered by Australian Aborigines, who treated wounds with poultices of tea tree leaves and brewed it as a tea for sore throats. Later, during World War II the oil was an essential part of a soldier's kit, prized for its ability to treat wounds and fungal infections (including the dreaded 'trench foot').

Customer Care Guide

Personal Uses

Use	Tea Tree Spray	Tea Tree Oil	Tea Tree Solution
Cuts & Abrasions		To help prevent and treat infection, apply directly on affected skin as required.	
Acne & pimples		To reduce inflammation and heal, dab directly on affected skin as required.	
Foot odour	Spray on feet as a natural antifungal.	To kill odour causing bacteria, add 1 capful to warm water and bathe feet. Sprinkle oil in shoes to freshen and eliminate odours.	To kill odour causing bacteria, add 2 capfuls to warm water and bathe feet. Add to laundry wash to treat affected socks.
Bites and stings	To help prevent infection and reduce irritation, spray directly onto minor bites. Do not rub in.	To reduce irritation and help prevent infection, dab directly on affected skin as required.
